

OMAT WEST LIMITED (FORMERLY KNOWN AS SHREE SIDHBALI ISPAT LIMITED)
(CIN: U27109GJ2004PLC155136)
Balance Sheet as at 30 June 2024
(All figures are in Rs. Lakhs, unless otherwise stated)

Particulars	Note	As at 30 June 2024	As at 31 March 2024
I. ASSETS			
A. Non-current assets			
Property, Plant and Equipment	3(a)	21,335.47	21,586.48
Capital work in progress	3(a)	866.69	82.96
Right of use asset	3(b)	1,534.21	1,539.28
Intangible assets	3(c)	5.87	6.71
Financial assets:			
(i) Other financial assets	4	169.14	169.14
Tax assets (Net)	5	90.37	89.81
Other assets	7	174.40	112.54
Sub-total (A)		24,176.15	23,586.92
B. Current assets			
Inventories	8	6,368.33	4,804.35
Financial assets:			
(i) Trade receivables	9	674.31	759.44
(ii) Cash and cash equivalents	10(a)	2.06	9.58
(iii) Other bank balances	10(b)	171.60	133.52
(iv) Other financial assets	4	5,255.97	5,500.02
Tax assets (Net)	5	-	-
Other assets	7	614.95	619.40
Sub-total (B)		13,087.22	11,826.31
		37,263.37	35,413.23
II. EQUITY AND LIABILITIES			
C. Equity			
Equity share capital	11	5,948.27	5,948.27
Other equity	12	(343.01)	(964.58)
Sub-total (C)		5,605.26	4,983.69
Liabilities			
D. Non-current liabilities			
Financial liabilities			
(i) Borrowings	13	12,148.63	12,315.65
(ii) Other financial liabilities	14	1,365.00	1,365.00
Provisions	15	63.77	57.51
Deferred tax liabilities (Net)	6	3,798.03	3,599.39
Other liabilities	16	97.29	181.19
Sub-total (D)		17,472.72	17,518.74
E. Current liabilities			
Financial Liabilities			
(i) Borrowings	13	11,581.98	9,491.94
(ii) Trade payables	17		
-Total outstanding dues of micro enterprises and small enterprises		227.56	134.25
-Total outstanding dues of creditors other than micro enterprises and small enterprises		1,843.43	2,238.17
(iii) Other financial liabilities	14	127.28	179.53
Other liabilities	16	404.12	865.90
Provisions	15	1.01	1.00
Sub-total (E)		14,185.38	12,910.79
		37,263.37	35,413.23

OMAT West Limited (Formerly known as Shree Sidhbal Ispat Limited)
Notes to financial statements for the period ended 30 June 2024

1. Corporate Information

OMAT West Limited (Formerly known as Shree Sidhbal Ispat Limited) (the 'Company') w.e.f 31st August 2023 is a public limited company incorporated in India on 6 September 2004 under the provisions of the Companies Act applicable in India w.e.f 22nd February, 2022 OMAT West Limited (Formerly known as Shree Sidhbal Ispat Limited) became wholly owned subsidiary of OFB Tech Private Limited. The Company is engaged in the business of manufacturing and selling of thermo mechanical treatment rebars which includes the process of casting and hot- rolling to yield high quality self-tempered TMT steel, and selling billets and sponge iron under an integrated steel manufacturing facility. The Company is having its registered office at B-1102, Sankalp Iconic Tower, Opp. Vikramnagar, Bopal Ambli Road, Ahmedabad, Bodakdev, Ahmedabad City, Gujarat, India, 380054.

2. Material accounting policies

2.1 Basis of preparation and presentation of Financial Statements

Statement of Compliance

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

Basis of Preparation

The financial statements have been prepared on accrual and going concern basis under the historical cost convention except for certain class of financial assets/ liabilities and net liability for defined benefit plans that are measured at fair value. The accounting policies have been consistently applied by the Company unless otherwise stated.

Functional and Presentation Currency

The financial statements have been prepared and presented in Indian Rupees (Rs), which is also the Company's functional currency. All amounts in the financial statement and accompanying notes are presented in 'Lakhs' and have been rounded-off to two decimal places unless stated otherwise.

Fair value measurement

The Company measures financial instruments at fair value at each reporting date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

Certain accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values.

For financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

CERTIFIED TRUE COPY

Authorised Signatory

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

2.2 Use of estimates

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of asset and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the period presented.

Estimates and underlying assumptions are continually evaluated and reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical accounting estimates and judgements

Information about significant areas of estimation and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the following areas:

- **Expected credit losses on financial assets:** The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's history of collections, customer's creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.
- **Income Tax**
Management's judgement is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the financial statements.
- **Impairment testing:** The recoverable amount of property, plant and equipment is based on estimates and assumptions regarding, in particular, the expected market outlook and future cash flows associated with the assets. Any changes in these assumptions may have a material impact on the measurement of the recoverable amount and could result in impairment.

2.3 Revenue recognition

Revenue is recognized upon transfer of control of promised products or services to its customers in an amount that reflects the consideration we expect to receive in exchange for those products or services, when the Company acts as a principal.

The following specific recognition criteria must also be met before revenue is recognized:

CERTIFIED TRUE COPY

OMAT WEST LIMITED

Authorised Signatory

Sale of goods:

Revenue from sale goods is recognised upon delivery of the goods or when the material is shipped to the customer (as may be specified in the contract) and title have passed and when no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection. The amount recognised as revenue is net of taxes, sales returns, and trade discounts.

Other Income:

Interest Income on deposits

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, using effective interest rate (EIR) method.

2.4 Inventories

Inventories (including goods in transit) are valued at the lower of cost and net realisable value after providing for obsolescence and other losses, when considered necessary. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Cost of inventory comprises all cost of purchase (net of tax credits where applicable), costs of conversion and other cost incurred in bringing the inventories to the present location and condition. In determining cost, FIFO (First in first out) method is used.

2.5 Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use.

Depreciation Methods, estimated useful lives and residual value

Depreciation commences when the assets are ready for their intended use. Depreciation on property, plant and equipment have been provided on the straight-line method as per the useful life which is higher than the useful life prescribed in Schedule II to the Companies Act, 2013. The life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

Type of Asset	Life (in years)
Building	40
Plant and machinery	15,30
Furniture and Fixtures	10
Vehicles	10
Office equipment	7
Computers	3

The life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Depreciation is provided on a pro-rata basis i.e., from the date on which asset is ready for use:-

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting

CERTIFIED TRUE COPY

OMAT WEST LIMITED

Authorised Signatory

period, with the effect of any changes in estimate accounted for on a prospective basis.

Intangible Assets

An Intangible Assets is recognised when it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably. All other expenditure is expensed as incurred.

Intangible assets acquired separately are measured on initial recognition at cost. Subsequent to initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

The cost of a separately acquired intangible asset comprises of its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and any directly attributable cost of preparing the asset for its intended use.

Amortisation of Intangible assets

The useful lives of intangible assets are assessed as either finite or indefinite. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. The software is amortised over a period of 3 years. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

2.6 Leases

Where the Company is a lessee

For the lease contracts where the Company is a lessee, it recognizes right-of-use asset and lease liability.

Right-of-use assets:

At the commencement of lease, right-of-use asset is recognized at cost. Cost comprises of initial measurement of lease liability, lease payments made before commencement date less lease incentives, initial direct costs incurred by the Company and estimate of any dismantling cost.

Right-of-use assets are amortized over the lease term.

The right-of-use assets are subsequently measured at cost less accumulated depreciation and any accumulated impairment. Adjustment is made for any remeasurement of lease liability.

Lease liability:

At the commencement of lease the Company measures the lease liability at the present value of lease payments not paid at commencement date. The lease payments are discounted using the Company's incremental borrowing rate.

Lease liabilities are subsequently increased by interest on the lease liability and reduced by the lease payments. It is adjusted to reflect any reassessment or lease modifications.

Short term lease and low value leases:

The Company does not recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Company has taken Land on lease from Maharashtra Industrial Development Corporation (MIDC) for 95 years.

OMAT WEST LIMITED

Authorised Signatory

CERTIFIED TRUE COPY

2.7 Impairment of tangible assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. An impairment loss is charged to the Statement of Profit and Loss in the year in which the asset is identified as impaired. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss.

2.8 Employee Benefits

(a) Short term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Other long-term employee benefits

These liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related services. They are therefore measured as the present value of expected future payments to be made in respect of services provided by the employees up to the end of the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligations. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer the settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

(c) Post-employment employee benefits

The Company operates the following post-employment schemes:

1. Defined contribution plans

The Company's contribution to provident fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made at the determined rate as and when services are rendered by the employees. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

2. Defined benefit plans

The Company's Gratuity plan is a defined benefit plan. The present value of the obligation under defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Balance Sheet date.

Remeasurement, comprising actuarial gains and losses is recognised in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to profit or loss.

Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Statement of Profit and Loss as employee benefit expenses. Interest cost implicit in defined benefit employee cost is recognised in the Statement of Profit and Loss under finance cost. Gains or losses

OMAT WEST LIMITED

CERTIFIED TRUE COPY

Authorised Signatory

OMAT West Limited (Formerly known as Shree Sidhbal Ispat Limited)
Notes to financial statements for the period ended 30 June 2024

on settlement of any defined benefit plan are recognised when the settlement occurs. Past service cost is recognised as expense at the earlier of the plan amendment or curtailment and when the Company recognises related restructuring costs or termination benefits.

2.9 Foreign Currency transactions

Foreign currency transactions are recorded at the rates of exchange prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items denominated in foreign currency translated into rupees at year-end exchange rates are recognised in Statement of Profit and Loss.

Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities are recognised as income or expense in the Statement of Profit and Loss.

Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined.

2.10 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial recognition:

All financial assets are recognized (except trade receivable that does not contain significant financing component) initially at fair value plus, in the case of financial assets not recorded at fair value through the statement of profit and loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the assets.

Subsequent measurement:

(d) **Financial assets carried at amortised cost:** A financial asset is subsequently measured at amortised cost if the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(e) **Financial assets carried at fair value through other comprehensive income (FVTOCI):** A financial asset is subsequently measured at fair value through other comprehensive income if the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(f) **Financial assets carried at fair value through profit or loss (FVTPL):** All other financial assets are subsequently measured at fair value.

(g) **Financial liabilities at amortised cost:** Financial liabilities includes interest bearing loans and borrowings which are subsequently measured at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition of financial assets: The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and substantially all the risks and

OMAT WEST LIMITED

CERTIFIED TRUE COPY

Authorised Signatory

rewards of ownership of the asset to another party or the transfer qualified for derecognition under Ind AS 109.

Financial liabilities

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings. The measurement of financial liabilities depends on their classification, as described below:

(a) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

(b) Trade and other payables.

A payable is classified as 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities: The Company derecognises a financial liability when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Impairment of financial assets: The Company recognises loss allowances using the Expected Credit Loss (ECL) for the financial assets which are not measured at fair value through profit or loss. In relation to loss allowance for financial assets (excluding trade receivables), ECL's are measured at an amount equal to 12-month ECL, unless there has been significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 115, the Group always measures the loss allowance at an amount equal to lifetime ECL.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.11 Compound instruments

Compound financial instruments issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an

CERTIFIED TRUE COPY

OMAT WEST LIMITED

Authorised Signatory

OMAT West Limited (Formerly known as Shree Sidhballi Ispat Limited)
Notes to financial statements for the period ended 30 June 2024

equity instrument.

A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recognised as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income taxes effects, and is not subsequently remeasured.

2.12 Government grant

The Company is entitled to subsidies from government in respect of manufacturing units located in specified regions. Such subsidies are measured at amounts receivable from the government which are non-refundable and are recognized as income when there is a reasonable assurance that the Company will comply with all necessary conditions attached to them. Income from subsidies is recognized on a systematic basis over the periods in which the related costs that are intended to be compensated by such subsidies are recognized. Income from the above grants and subsidies are presented under Revenue from Operations.

2.13 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Equity shares that will be issued upon the conversion of a mandatorily convertible instrument are included in the calculation of basic earnings per share.

For calculating diluted earnings per share, the net profit attributable to equity shareholders and the weighted average number of shares outstanding are adjusted for the effect of all dilutive potential equity shares.

2.14 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

2.15 Cash Flow Statement

Cash Flows are reported using indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals and accruals of past or future operating cash receipts and payments and item of income and expenses associated with investing or financing cash flows. The cash flows from operating, investing, and financing activities of the company are segregated.

2.16 Taxation

Income tax expense represents the sum of current tax and deferred tax.

Current tax: The current tax expense or credit for the year is the tax payable on the current period taxable income based on the applicable enacted income tax rate in accordance with the Income Tax Act, 1961 adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, items that are never taxable / deductible and unused tax losses / tax credits.

Current tax assets and tax liabilities are offset where the entity has a legal enforceable right to offset and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax: Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their corresponding carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction (other than in a business combination) that effects neither accounting profit nor taxable profit. Deferred tax is determined using tax

OMAT WEST LIMITED

CERTIFIED TRUE COPY

Authorised Signatory

rates (and laws) that have been enacted or substantially enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realised, or the deferred tax liability is settled. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Current and deferred tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in Other Comprehensive Income (OCI) or directly in Equity, in which case, the tax is also recognised in OCI or Equity respectively.

2.17 Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligations at the balance sheet date and are not discounted to its present value. These are reviewed at each Balance Sheet date and adjusted to reflect the best current estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligations or a reliable estimate of the amount cannot be made.

2.18 Operating Cycle/ Current and Non-Current Classification

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current/non-current classification of assets and liabilities.

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- It is held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or Cash Equivalent.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as noncurrent. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Notes to financial statements for the period ended 30 June 2024
(All figures are in Rs. Lakhs, unless otherwise stated)

Note No. 18 Revenue from operations

	For the period ended 30 June 2024	For the year ended 31 March 2024
(a) Revenue from sale of products		
(i) Manufactured Goods	12,888.82	55,979.94
(ii) Traded Goods	-	1,882.04
(b) Other operating revenue	798.82	3,310.86
Total	13,687.64	61,172.84

Break-up of revenue from operations:

a) Disaggregation of revenue based on major products and services:

Revenue from sale of manufactured goods		
Sale of products		
- TMT	7,079.76	34,988.81
- Billets	3,303.67	19,084.36
- Others	2,505.39	1,906.77
	12,888.82	55,979.94
Revenue from sale of traded goods		
- TMT	-	1,882.04
	-	1,882.04
Other operating revenue		
- Industrial Promotion Subsidy (IPS) under PSI-2007	-	2,844.71
- Waste & Scrap sales	798.82	466.15
	798.82	3,310.86

b) Disaggregation of revenue based on major geographical location:

India	13,687.64	61,172.84
Outside India	-	-
	13,687.64	61,172.84

c) Reconciliation of the amount of revenue recognised in the Statement of Profit and Loss with the contracted price:

Revenue as per contracted price	12,850.74	56,254.96
Less: Captive transfer for own projects	-	-
Less: Adjustments -		
Sales return, rebates and discounts	38.08	(275.02)
	12,888.82	55,979.94

Refer note 30 for disclosure in respect of contract balances.

d) Performance obligations

Sale of products - Revenue from sale of goods is recognised on transfer of goods for a price or all significant risks and rewards of ownership to the buyer which is generally on dispatch of goods from the company in accordance with the terms of sale except where such terms provide otherwise, whereas sales are recognised based on such terms. Gross sales are net of trade discounts and sales return, where applicable.
